

# Dignity

A PROJECT PORTRAYING A DIFFERENT PERSPECTIVE ON SURVIVORS OF DOMESTIC VIOLENCE, DEPICTING BEAUTY, STRENGTH AND DIGNITY BEYOND THE STORIES OF ABUSIVE EXPERIENCES AND MEMORIES.

**Join us at our reception at 3pm on Saturday, February 20 at The 1961 Coworking and Art Space in Siem Riep.**

Exhibition from February 17 to March 8, International Women's Day

NGO-CEDAW, a Cambodian organization devoted to gender equality, and documentary artist Mona Simon have created an inspiring project to raise awareness about domestic violence. The show portrays the strength and dignity of survivors, contrasting with society's usual attitude of blaming women for the violence which they experience.

The exhibition shows canvas prints depicting encouraging portraits of survivors of violence accompanied by stories of their experiences and a reference to the gaps in the existing laws on domestic violence, which aren't giving them enough protection.
